

Tom van Veen

FRONT-END ENGINEER

Profile

Experienced Front-End Engineer with a focus on enterprise software development, automated testing, and continuous integration. Committed to minimizing code abundance, I prioritize clean, efficient solutions in every project. Valuing collaboration and pair programming, I thrive in team environments, fostering innovation and delivering high-quality results. Outside of work, I indulge my passion for technology by exploring various programming languages and building project websites, showcasing my dedication to continuous learning and personal growth.
